To: Valued Maurey Customer  
Re: Price Adjustment – Effective September 29, 2025

Maurey Manufacturing continues to remain committed to investing in capital and processes to increase efficiencies and to reduce costs. Maurey has held pricing on sheaves, timing pulleys, bushings, couplings and variable speed sheave drives constant since January 2023. Global tariffs on raw material and finished goods along with continued rises in transportation, material and labor costs make it necessary for us to increase prices. We will adjust pricing on orders placed for shipment on or after September 29, 2025 in the amounts shown below:

<b><u>Product Description</u></b>	<b><u>% of Increase</u></b>
<b>HY-T Wedge Belts (3V,5V,8V), Hy-t Belts (A,B,C,D), Torque Flex Belts (AX,BX,CX), Hy-T Wedge Torque Team and Torque Team Plus Belts (3V,5V,8V, 5VF, 8VF), Hy-T Torque Team (B,BX, C, CX,D), FHP Belts(2L,3L,4L,5L), Open End V-Belts, Hex Belts(BB,CC), Variable Speed Belts, Poly-V Belts, Positive Drive Belts, Dual Positive Drive Belts, Hawk Belts, Blackhawk Belts, SynchroChain Belts, Falcon belts, and Nu-T Link Belting</b>	<b>3.0 %</b>
<b>Hi-Q Finished Bore Sheaves, Variable Pitch Sheaves, Reducing Bushings, HQ Bushed Sheaves, Multi-V and Super Wedge Sheaves (QD), Split Barrel Sheaves, Positive Drive Pulleys, (MPB and Bushed), High Torque Sprockets (8M,14M), Mor-Chain Sprockets (8MX MPB and Bushed), Ful-Grip (QD) Bushings, Split Barrel Bushings, HQ Bushings and HQ Weld-on Hubs, Rigid Sleeve Couplings (Fixed Bore and Bushed), Hi-Flex Couplings Hi-Flex* Couplings and Elements, and Variable Speed Drives (Spring Loaded and Manual Control Sheaves, and Motor Bases), Falcon** Sprockets</b>	<b>6.0%</b>
<b>Hi-Q Flexible Couplings(Jaw) and Spiders</b>	<b>11.0%</b>
